

Located primarily in an ONCOR utility right-of-way, the Lake Highlands Trail will connect the Lake Highlands neighborhood to Lake Highlands High School and Lake Highlands North Park. It may be possible to link this trail southward to the existing White Rock Creek Greenbelt Trail should redevelopment occur along Jackson Branch Creek. Trail follows ONCOR ROW from the White Rock Creek Trail at Harry Moss Park to Arbor Park. The trail uses sidewalk/street connections along Tory Sound and Church Road to route around the DART rail line and Skillman. The 2003 Bond Program provides limited funding for design and construction.

Total Planned Length:	21,568 Linear Feet (4.1 miles) (Extension southward to White Rock Creek is an additional 3 miles and the connection to Harry S. Moss Park is approximately 1 mile.)
Total Current Length:	0 Linear Feet
Percent Complete:	0%
Surface:	Concrete
Width:	12 Feet
Right-of-Way Status:	A license agreement with ONCOR will be required. Trail easements from private property, associated with future re-development, would be required along Jackson Branch to link the trail to White Rock Creek Greenbelt Trail.
Est. Unfunded Need:	\$1.2 million (An additional \$3.5 Million is estimated for extension to White Rock Creek Greenbelt Trail)
