

The Trinity Trail will serve as the spine trail for the Trinity River park located near Downtown Dallas. Beginning at Westmoreland, the trail follows the Trinity River, past downtown and ending at the DART rail crossing of the Trinity River. At this location, the trail connects to the Santa Fe Trestle Trail, Great Trinity Forest Trail and the Cedar Crest Trail with access to Moore Park. The Trinity Trail will link the proposed improvements to the Trinity River Park including athletic fields, white water course, wetlands and the urban lakes.

Total Planned Length: 33,656 Linear Feet (6.4 miles)  
 Total Current Length: 0 Linear Feet  
 Percent Complete: 0%  
 Surface: Concrete  
 Width: 12 Feet  
 Right-of-Way Status: City right-of-way is currently available for the main trail.
