

The Trinity Interpretive Center trails will be built in association with the Trinity Interpretive Center in southeast Dallas. The Interpretive Center trails, built adjacent to an environmentally reclaimed landfill, will have three main loops with three distinct interpretive themes-forest, water, and prairie. The trails will link with the proposed Great Trinity Forest Trail. Refer to the Feasibility Study and Master Plan for Trinity Interpretive Center and the Trinity Equestrian Center-September 2004.

Total Planned Length:	9,536 Linear Feet (1.8 miles)
Total Current Length:	0 Linear Feet
Percent Complete:	0%
Surface:	Natural
Width:	Variable
Right-of-Way Status:	The land will be owned by the City of Dallas. Land acquisition is required for the project and is in progress by the Trinity River Corridor Project Office.
Est. Unfunded Need:	\$1 Million
